Equipped with a new biological treatment capability, the extension has been designed to increase treatment capacity from 100,000 to 130,000 population equivalent and meet the new needs of ...

Our containerised sewage treatment plant (STP) is made for easy setup and relocation. This solution is ideal for remote locations such as mining camps and oil rig sites.

This paper presents a novel approach to integrating PV technology with WWTPs infrastructure. In this research, a model simulation and validation of the integration of the PV ...

Our containerised sewage treatment plant (STP) is made for easy setup and relocation. This solution is ideal for remote locations such as mining ...

The ClearFox® Containerized System is a packaged wastewater treatment plant, custom designed and pre-installed within ISO shipping containers. As a modular solution, it is easily ...

This article provides an overview of harnessing solar energy for wastewater treatment plants, highlighting its relevance and importance ...

The complete plants will be ready mounted as package units or in standard ISO containers for easy transport and quick delivery. The turnkey solution is designed for managing both potable ...

The ClearFox® Containerized System is a packaged wastewater treatment plant, custom designed and pre-installed within ISO shipping containers. ...

Experts from 14 countries analyzed the potential for solar heat and photons for wastewater treatment in

600kW Photovoltaic Containerized Unit for Monaco Wastewater Treatment Plant
