What are Arimon battery cabinets?

Arimon uninterruptible power supply (UPS) backup battery cabinets are available for either front access batteries or top terminal (monobloc) batteries. All battery cabinets are constructed from heavy gauge steel with a durable welded frame and acid resistant powder coated finish available in a wide range of colors.

What is a battery cabinet?

Equipped with the HindleHealth System, the Battery Cabinet will keep your battery at the ideal temperature in the most extreme of environments, giving you peace of mind. HindlePower's Outdoor Battery Cabinet takes a proactive approach to hydrogen mitigation.

How many batteries can a PSS battery cabinet hold?

PSS Distributors supplies a wide range of battery cabinets that can be used for various applications. Popular in the UPS and inverter industry, these cabinets can house up to 40 x 12V100Ah batteries. Our powder-coated cabinets are non-movable and easy to construct in any clean environment.

What is a complete cabinet assembly?

A complete cabinet assembly consists of: a door, a backbox, an optional battery plate, and an optional semi-flush trim ring. For each cabinet required, order one "DR" door and one "SBB" backbox. The BP2-4 battery plate is required for each cabinet assembly that mounts batteries and/or a power supply in the lower position of the cabinet.
