Where can I exchange money in Israel?

Currency Exchange at Israel's Airports Upon arrival in Israel, the most common and convenient option for exchanging money is to visit the currency exchange desks at Ben Gurion Airport(Tel Aviv) or other regional airports. These counters operate 24/7, so even if you're arriving on a late flight, you'll be able to exchange some cash.

When did Jerusalem Airport close?

In 1981, Israel effectively annexed the airport as part of the Jerusalem Law. Between 1967 and 2000, Arkia and El Al operated daily commercial flights to and from the airport; Israel closed the airport to all civilian traffic following the outbreak of the Second Intifada in 2000.

How much cash should I bring to Israel?

You should bring around 300\$ in cash to Israel. You can order shekels from your bank here before you leave, but it is easier to exchange in Israel. Avoid changing too much money in the airport; exchange rates are bad there. However, you may want to change ~\$50 to shekels for transportation to where you are staying. The busses only accept cash.

Can I use an ATM in Israel?

ATMs are ubiquitous in Israel. We recommend that you use only official bank ATMs. With a debit card, the ATM gives you the desired amount of shekels and your home account is debited at the current exchange rate. Note that there may be a limit on how much money you are allowed to withdraw each day and that service charges are usually applied.

Is the currency exchange at Jerusalem Airport fair? Or are travellers being ripped off? Find out the truth and learn how to get the best rates.
