What is the Swedish telecom market report?

The Swedish Telecom Market report is one of Sweden's most important survey of telecom operators. The Swedish Post and Telecom Authority (PTS), has been tasked with tracking developments in the electronic communications market, promoting competition in that same market and inform consumers.

Why is telecommunication technology so popular in Sweden?

This abundance of telecommunication technology is a result of promoting a competitive industry that was made possible by deregulation. Since Sweden was the first to take on this arduous task the government had to come up with "a regulatory framework of its own";.

When was telecommunications liberalized in Sweden?

This article covers telecommunications in Sweden. Sweden liberalized its telecommunications industry starting in 1980s and being formally liberalized in 1993. This was three years ahead of USA and five years before the European common policy introduced in January 1998 allowed for an open and competitive telecommunication market.

How is Sweden's ICT market segmented?

Sweden's ICT Market is Segmented by Type(Hardware,Software,IT Services,Telecommunication Services),by Size of Enterprise (Small and Medium Enterprises,Large Enterprises),and by End-User Vertical (BFSI,IT &Telecom,Government,Retail and E-Commerce,Manufacturing,Energy,and Utilities).

This report and accompanying data provide a comprehensive overview of Sweden's telecoms market, including KPIs, data on subscribers, and more.

The processes that went about resulting in the liberalization of the telecommunications" industry can be structured into three phases: "Phase 1 of monopoly to Phase 2 with a mix of monopoly ...
