By 2026, the Middle East and Africa region is poised to emerge as a critical hub for Sodium Sulfur (NaS) Battery Energy Storage Systems (BESS), driven by accelerating ...

As Bahrain positions itself as a Gulf energy storage hub, the focus shifts to creating battery ecosystems--not just standalone installations. The recent partnership with Saudi Arabia's ...

His Majesty King Hamad bin Isa Al Khalifa has officially approved Law No. (26) of 2025, which confirms Bahrain's agreement with the Islamic ...

Manama, Nov. 30 (BNA): Bahrain unveiled its National Energy Strategy: a clear, credible, and responsible pathway to reaching the climate targets the Kingdom pledged to achieve at ...

The project includes the construction of a pumped storage hydroelectric power station with a capacity of 200 MW in turbine mode and 220 MW in pumping mode, a seawater desalination ...

According to industry research firm Enerdata, Bahrain's aluminium and petrochemical industry alone is responsible for 60% of energy consumption, and is the main reason why ...

His Majesty King Hamad bin Isa Al Khalifa has officially approved Law No. (26) of 2025, which confirms Bahrain's agreement with the Islamic Development Bank (IsDB) to finance a new ...

The recent partnership with Saudi Arabia's Business building energy storage Bahrain Electrochemical storage (batteries) will be the leading energy storage solution in MENA in the ...

With 15+ years in renewable energy integration, we specialize in turnkey storage solutions for utility-scale

Bahrain Sodium Sulfur Energy Storage Power Station Project
