Who makes solar water pumps?

WBS began producing water pumps in 1998. In 2008, we independently developed and produced solar water pumps. We have OEM production for more than 200 solar pump dealers around the world. Over the past 10 years, we have produced more than 150,000 sets of solar water pumps that have been exported to other parts of the world.

Are solar-powered water pumps a sustainable solution?

Solar-powered water pumps are increasingly popular as a sustainable and cost-effective solution for well, irrigation, and livestock water needs. Solar pumps come in various sizes and types, from small 12V pumps for low gallons per minute requirements to larger systems running off 6-panel solar arrays for commercial agriculture.

Who is WBS solar pump?

We are WBS solar pump, the No.01 Chinese Factory of solar pumps located in Ningbo, Zhejiang which is near the port and takes a good advantage for the sea shipping. 18000+ solar pumps sales per year, 300 dealers around the world, ISO9001, CE certificated.

Do solar water pumps cost a lot?

And like all solar-powered devices, solar water pumps don't have any ongoing operational costs. This means that once the initial investment is made, the cost of pumping water becomes negligible. Solar water pumps also have a long lifespan, with many models lasting up to 15 to 20 years or more.

These water pumps are used in irrigation of agriculture, also widely used for drinking water and living water use.

Feature highlights: This solar water pump is designed for agricultural farming irrigation, featuring a wide open
