-----

Are DCC circuit breakers reliable?

DCCconcepts Intelligent Circuit Breakers are fully electronic,highly reliable,fast acting and adjustable to give the best level of protection for each individual application. While other brands make similar things,they often use slow technology,such as relays,that do not work as well - making DCC systems falter and causing trains to hesitate.

Does DCC need a fast acting breaker?

Good power management around the layout is essential. DCC really does need fast acting breakersto protect locomotives and infrastructure from high current short circuits and overload,so only properly designed and fast-acting products designed for DCC are suitable.
