What is a GFCI circuit interrupter?

Tower Manufacturing supplies a wide range of Ground Fault Circuit Interrupter (GFCI) products to ensure the safety of users from electronic shock and fire. All Tower GFCI products are designed to UL standards using the latest technologies and highest quality components available to provide reliable performance.

How do I reset a GFCI outlet?

To reset a GFCI outlet, you can use the red RESET button and the black TEST button near the middle of the receptacle. Press the red RESET button to reset the GFCI. The TEST button tests the safety function of the GFCI, which is its ability to trip the outlet and shut off power when there is a fault in the current.
