Where are Britwind turbines made?

Designed and built in the UK, our first turbines were installed over 20 years ago and are still going strong. With over 2,500 installations across the globe, Britwind has earned a reputation for safety, reliability and longevity.

Is Britwind a good wind turbine?

With over 2,500 installations across the globe, Britwind has earned a reputation for safety, reliability and longevity. Our turbines' performance is unmatched, generating more energy per annum than any other small wind turbines in their class.

How do I develop a wind power site?

The first step to develop any wind power site is to conduct a full Wind Turbine Feasibility Study. If you are interested in installing a wind turbine, the first step is to Contact us to discuss your requirements and to complete a Wind Turbine Feasibility Study.

Discover the top wind turbine manufacturers in the UK, including Siemens Gamesa, Vestas, and GE Vernova, and their role in driving the UK's wind energy goals.

Leading Edge is a British designer and manufacturer of off-grid power systems. We provide pre-configured, plug-and-go units to supply power 24/7 in remote locations, 365 days a year.
