---

Unlock the potential of battery energy storage systems for quality solar systems in Canberra, enabling energy independence and cost savings.

The ACT Battery project in Australia will enhance the quality of supply in the city of Canberra and accelerate the country's energy transition by enabling greater introduction of ...

Explore the Williamsdale Battery Energy Storage System (BESS) project by Eku Energy, a 250MW/500MWh facility in Canberra. This project ...

The ACT Government has reached a major milestone in its work to future-proof Canberra's energy supply. The development application has been approved to deliver Stream ...

The way has been cleared for construction to begin on a 250 MW / 500 MWh battery energy storage system that will help "future proof" the Australian Capital Territory's ...

Over the next year, three new community-scale battery energy storage systems (BESS) will be deployed across Canberra to optimize solar energy usage, stabilize grid ...

The ACT Battery project in Australia will enhance the quality of supply in the city of Canberra and accelerate the country's energy ...

The project will deliver an ecosystem of batteries across the ACT to ensure its electricity grid remains stable, and will help to future-proof the state's ...

The large-scale 250 megawatts (MW) battery will store enough renewable energy to power one-third of the

city of Canberra for two hours during peak demand, helping to ...

The large-scale battery storage system will deliver 250 megawatts (MW) of power, store renewable energy and support grid reliability. Enough energy to power one-third of ...

Explore the Williamsdale Battery Energy Storage System (BESS) project by Eku Energy, a 250MW/500MWh facility in Canberra. This project enhances energy security and reliability, ...

The project will deliver an ecosystem of batteries across the ACT to ensure its electricity grid remains stable, and will help to future-proof the state's electricity security.

Eku Energy has finalized financing for its 250 MW/500 MWh energy storage system in Canberra, contributing to the energy security of the ACT and its ambitious climate goals.
