---

With the pipeline of sodium-ion manufacturing plants relentlessly expanding, Guangde Qingna Technology Co., Ltd. officially signed an agreement on Nov. 20 for its 20 ...

In a bid to diversify from lithium, China has been exploring alternative energy storage technologies. Sodium-ion batteries have emerged as a promising option due to their ...

This is currently the world's largest sodium-ion battery energy storage project and marks a new stage in the commercial operation of sodium-ion battery energy storage systems, ...

This is currently the world's largest sodium-ion battery energy storage project and marks a new stage in the commercial operation of ...

A researcher from the Energy Storage Research Institute of CSG Energy Storage Co., Ltd. noted that the integration of lithium and sodium battery technologies in a single system has ...

With a total investment of 165.970 million, this project marks China Sodium Energy's first industrial implementation of its proprietary vanadium flow battery technology in Northwest ...

The first 50MW/100MWh portion of the project in Qianjiang, Hubei province has been completed and put into operation, state-owned ...

China's state-owned power generation enterprise Datang Group said on June 30 that it had connected to the grid a 50 MW/100 MWh project in Qianjiang, Hubei Province, making it ...

The first phase of China Datang's sodium-ion battery energy storage power station project was put into

operation Sunday in Qianjiang, Hubei Province. It's the largest such project in the ...

China's state-owned power generation enterprise Datang Group said on June 30 that it had connected to the grid a 50 MW/100 MWh ...

The world's first 10GWh Prussian blue sodium ion battery production line has officially started, opening up a new path for cost reduction and efficiency improvement in ...

The first 50MW/100MWh portion of the project in Qianjiang, Hubei province has been completed and put into operation, state-owned media outlet Yicai Global and technology ...

This project is part of a broader industrial strategy positioning the Suining zone as a central hub for the entire sodium-ion ecosystem, aiming to meet the booming demand for ...
