Definition of dozen noun in Oxford Advanced Learner's Dictionary. Meaning, pronunciation, picture, example sentences, grammar, usage notes, synonyms and more.

One square meter of solar panels in the Sahara could produce up to 250 watts of power daily. With its vast land area and minimal population, the desert is uniquely suited for solar ...

DOZENS definition: (usually foll by of) a lot See examples of dozens used in a sentence.

Nicknamed the "photovoltaic sea," there are already over 3 million solar panels shimmering along a stretch of mostly lifeless sand. The Kubuqi's sunny weather, flat terrain, and proximity to...

According to one study, covering just 1.2 per cent of the Sahara with solar panels could generate enough electricity to power the entire world. As humanity faces the dual crises of energy...

Researchers imagine it might be possible to transform the world's largest desert, the Sahara, into a giant solar farm, capable of meeting four times the world's current energy demand.

Just a small portion of the Sahara could produce as much energy as the entire continent of Africa does at present. As solar technology improves, things will only get cheaper and more efficient.

New peer-reviewed work from China suggests big desert solar parks can cool, moisten, and green their immediate footprints, while researchers caution that long-term outcomes remain site-specific and still need tracking.

Dozens of [= many] people were at the park. The shop sells dozens and dozens of [=very many] kinds of tea.

In the heart of the Gobi Desert, Jinta, Gansu Province, rows of solar panels are converting the harsh landscape into a burgeoning "blue ocean" of green energy.

If we covered the entire Sahara Desert with solar panels--even just 1-2% of it--we could theoretically generate enough electricity to power the entire planet several times over.

Breakfast in Denver with a downtown vibe! For the best breakfast in Denver and one of the best brunch spots in Denver, come eat at Dozens.

Definition of "dozens" dozens in British English ('dʒʌnz ) plural noun (usually foll by of) informal

New peer-reviewed work from China suggests big desert solar parks can cool, moisten, and green their immediate footprints, while researchers caution that long-term outcomes remain site ...

Engineers in a familiar continent are looking to transform what would have been called a dead zone into a clean-energy utopia with the help of 20 million solar panels. In this article, we will ...

Nicknamed the "photovoltaic sea," there are already over 3 million solar panels shimmering along a stretch of mostly lifeless sand. The Kubuqi's sunny weather, flat terrain, and ...
