Liquid air energy storage could be the lowest-cost solution for ensuring a reliable power supply on a future grid dominated by carbon-free yet intermittent energy sources, ...

Vena Energy, partners sign landmark framework agreement for 2 GW solar PV with 8 GWh battery energy storage system in Jakarta

Unlocking its secrets could thus enable advances in efficient energy production, electronics cooling, water desalination, medical diagnostics, and more. "Boiling is important for ...

MIT engineers developed a membrane that filters the components of crude oil by their molecular size, an advance that could dramatically reduce the amount of energy needed ...

At the MIT Energy Initiative's Annual Research Conference, speakers highlighted the need for collective action in a durable energy transition capable of withstanding obstacles.

The Co-Investment Agreement outlines the joint development of a solar power plant and battery energy storage project in Indonesia.

MIT researchers developed a new fabrication method that could enable them to stack multiple active components, like transistors and memory units, on top of an existing ...

We're diving into how containerized systems are rewriting Jakarta's energy playbook. Think of it as LEGO for megawatts - modular, scalable, and surprisingly sassy.

What's Next for Energy Storage in Jakarta? Industry watchers predict 2025-2028 will be transformative. With

the new capital Nusantara prioritizing renewable microgrids, Jakarta's ...

As MIT's first vice president for energy and climate, Evelyn Wang is working to broaden MIT's research portfolio, scale up existing innovations, seek new breakthroughs, and ...

These projects reflect a growing trend of combining battery storage with solar energy systems in urban and rural locations throughout Indonesia.

The availability of highly skilled and moderately skilled workers for the construction and development of solar power plants and energy ...

The project is set to feature up to 2 GW of solar power capacity and a battery energy storage system potentially capable of storing in excess of 8 GWh of clean energy, making it one of the ...

Company Reinforces Global Leadership in Data Center Cooling Solutions SEOUL, Aug. 22, 2025 -- LG Electronics (LG) has been announced as the cooling solutions provider ...

The MIT Energy Initiative's annual research spring symposium explored artificial intelligence as both a problem and solution for the clean energy transition.

French multi-energy group TotalEnergies SE (EPA:TTE) and Singapore-headquartered RGE today signed a co-investment agreement to construct a solar power plant ...
