**How much does a circuit breaker installation cost?**

The installation of a circuit breaker involves more than just the purchase of the unit, encompassing the setup and configuration within the electrical system. Typically, the installation costs range from £40 to £70 per hour, with the total cost influenced by the complexity of the task and the professional fees in your area.

**What types of circuit breakers are available?**

Circuit breakers, Thermal circuit breakers, Thermal magnetic circuit breakers and other passive components from industry-leading manufacturers, in stock and ready to ship today. The right components for tomorrow's success.

**How much does a GFCI breaker cost?**

Simple single-pole breakers typically range between £10 and £20, while more advanced types, such as GFCI and AFCI breakers, can cost more. Factors like brand, specifications, and suitability for your specific system also play a significant role.

**What brands of breakers do you stock?**
