---

Well, Finland's latest innovation in energy storage cabins might just prove them right. These modular powerhouses are tackling one of renewable energy's biggest headaches - how to ...

Hitachi Energy has signed an agreement with Nordic Electro Power (NEPower) to provide advanced power conversion technology for Finland's largest battery energy storage ...

As the world races toward clean and renewable energy, Finland has introduced a groundbreaking solution--giant sand batteries. These eco-friendly storage systems harness ...

While substantial financial details for the Finnish project remain undisclosed, the economic viability of battery storage is pivotal for broader ...

But modern energy storage cabinets from Finland are more like thermal ninjas - silent, adaptable, and built to handle extremes. Let's break down what makes them different:

A battery-storage project that will become the biggest in Finland has been given the go-ahead to start construction. The final investment decision, taken in late February by SEB ...

In a small Finnish town with a big climate goal, an unassuming tower of sand is quietly storing solar and wind energy all while making a powerful statement about clean tech ...

While substantial financial details for the Finnish project remain undisclosed, the economic viability of battery storage is pivotal for broader adoption. Crucially, the progress in ...

In a small Finnish town with a big climate goal, an unassuming tower of sand is quietly storing solar and wind energy all while making a ...

In Finland, three-meter-tall containers have appeared quietly in forests, fields, and along highways, looking unassuming but packed with technology. These containers serve as battery ...

Vantaan Energia has announced plans to build a EUR200 million seasonal thermal energy storage facility in Vantaa, Finland's fourth largest city, which is near the capital of ...

Hitachi Energy will supply Finland's largest 125MW battery storage system for Alpiq in Haapajärvi, scheduled for mid-2027, to bolster grid stability and support the nation's ...
