As the energy production varies, we will need to be able to ensure some form of stability. We can do this by storing energy and then discharging when need to supplement the ...

Georgia Power is proposing to decommission the Langdale and Riverview Projects and remove Langdale Dam, Crowhop Dam, Riverview Dam and the Riverview Project powerhouse.

Georgia is on track to deploy more than 1GW/4GWh of utility-scale storage by 2027, outpacing every other Southeastern state. Driven by economic growth and evolving grid ...

Georgia Power is seeking 500 MW of energy storage that can discharge for at least two hours. The energy storage can be standalone, or with a new or existing renewable ...

Located near Rome, Ga. in the southern Appalachian Mountains, the Rocky Mountain Pumped-Storage Hydroelectric Plant is capable of producing 1,095 megawatts of clean energy, enough ...

The Rocky Mountain Pumped Storage Project is located in the southern Appalachian Mountains, in the northwest corner of Georgia, and is one of a few dozen pumped storage hydroelectric ...

Georgia Power recently filed an update on hydro modernization progress with the Georgia PSC, which included the completion of scope of work for all four units at Plant Tugalo.

Georgia Power is seeking 500 MW of energy storage that can discharge for at least two hours. The energy storage can be standalone, ...

The Rocky Mountain Hydroelectric Plant is a pumped-storage power plant located 10 miles (16 km) northwest

of Rome in the U.S. state of Georgia. It is named after Rock Mountain on top of which the plant's upper reservoir is located. Construction on the plant began in 1977 and it was commissioned in 1995. After upgrades were completed in 2011, the plant has an installed capacity of 1,095 ...

The modernized hydro units will complement Georgia Power's renewable expansion plans, including solar and battery storage, by providing baseload capacity and grid ...

The Rocky Mountain Pumped Storage Hydropower Project provides peaking power to 39 electric membership cooperatives, serving almost two-thirds of Georgia's land mass.

The Rocky Mountain Hydroelectric Plant is a pumped-storage power plant located 10 miles (16 km) northwest of Rome in the U.S. state of Georgia. It is named after Rock Mountain on top of ...
