US solar recycling firm Solarcycle has signed a supply deal with US chemical producer Genesis Alkali to support the production of ...

Solarcycle plans to combine Ecosoda, a low-carbon natural soda ash from Genesis Alkali, with recycled materials from retired solar panels to produce the new solar glass.

Researchers have proven that solar panels made with recycled glass can be just as efficient as those made with new materials.

Alkali substances can corrode materials such as glass and metals, leading to reduced efficiency and lifespan of solar panels. In detail, exposure to alkali can weaken the ...

Today the vast majority of imported solar glass is made with synthetically produced soda ash. But naturally produced soda ash is 37% less ...

Today the vast majority of imported solar glass is made with synthetically produced soda ash. But naturally produced soda ash is 37% less greenhouse gas intensive than its synthetic alternative.

SolarCycle will combine Ecosoda with glass from recycled solar panels to produce domestic ultra-low carbon solar glass.

Solarcycle has signed a multi-year agreement with Genesis Alkali to purchase Ecosoda, a low-carbon natural soda ash produced near Green River, Wyoming. The move will ...

US solar recycling firm Solarcycle has signed a supply deal with US chemical producer Genesis Alkali to support the production of solar glass at its planned manufacturing ...

SOLARCYCLE will combine Ecosoda TM with glass from recycled solar panels to produce domestic ultra-low carbon solar glass ...

The domestic #CleanEnergy supply chain is expanding with SOLARCYCLE 's new multi-year agreement with Genesis Alkali to source soda ash, an essential raw material used in solar ...

SOLARCYCLE will combine Ecosoda TM with glass from recycled solar panels to produce domestic ultra-low carbon solar glass and further enhance the environmental benefits ...

Solarcycle has signed a multi-year agreement with Genesis Alkali to purchase Ecosoda, a low-carbon natural soda ash produced ...

SolarCycle has entered into a multi-year agreement with Genesis Alkali to purchase Ecosoda, a low-carbon natural soda ash produced near Green River, Wyoming, for ...
