Does Dublin city centre need a central substation?

Dublin City Centre currently gets its power from existing transmission substations in Finglas, Ringsend and Inchicore. It is projected that these existing transmission stations will reach their capacity limits in the coming years. Because of this, there is a need for a centrally located substation to support Dublin's growing electricity needs.

Will GE gas power build a new power plant in Dublin?

Baden, Switzerland - December 19, 2022 - GE Gas Power (NYSE: GE) and MYTILINEOS, today announced they have secured an order from the Electricity Supply Board of Ireland (ESB) for the construction of a new gas-fired power plant in Dublin, within ESB's existing North Wall Power Plant.

What is powering up Dublin?

This programme will help deliver a consistent and reliable supply of electricity for Dublin. Powering Up Dublin requires the installation of five routes for high voltage underground cables to replace older cables, as well as substation upgrades and the construction of a new electricity transmission substation in Central Dublin.

Where can EirGrid build a new transmission station in Dublin City?

EirGrid has surveyed the East Wall area to identify suitable sites for this new transmission station to reinforce the electricity grid in Dublin City. Stakeholder and landowner engagement in the area over the last number of months has resulted in the identification of a number of sites in the area, with one site shown to be most feasible.
