How much does a CertainTeed solar roof cost?

However, EnergySage does a great job gathering data about solar installations in the US, and this includes specific products and brands. They have determined that CertainTeed solar roofs have a typical cost of \$6.40 per watt, which can be considered average among solar roof providers.

How long do solar tiles last?

The lifespan of solar tiles is 25 to 30 years. Steel roofing tiles and sturdy, durable glass solar tiles are used to construct solar roofs, which also come with sizeable warranties. Solar shingle installation can take up to a week. However, with routine maintenance, solar tiles can last longer than the typical 25-30 years.

Are solar tiles durable?

Solar tiles are more durable than most standard roofing materials, even in harsh weather conditions like hail, snow, and high wind. We have projects built in a range of climates, from the Swiss Alps to Silicon Valley. Our roof is Class A fire-rated to keep you and your family safe, and we guarantee our tile for 25 years.

How many solar shingles & tiles do I Need?

CertainTeed solar shingles and tiles have an output of 70W, which means you need 5-6 of them to match one PV module. To reach an installed capacity of 10 kW, you could use 28 solar panels rated at 360W each, or 143 solar shingles or roofs rated at 70W each.
