Will Huawei's patented solid-state battery push EV limits?

Huawei's patented solid-state battery promises 3,000 km range & 5-min charging, pushing EV limits-- but real-world hurdles remain.

Does Huawei have a sulfide battery?

Huawei has intensified its ambitions in advanced energy storage by patenting a sulfide-based solid-state battery capable of achieving driving ranges of up to 3,000 kilometres and ultra-fast charging in just five minutes.

Is Huawei developing a solid-state battery?

According to the patent, Huawei is developing a solid-state battery architecture with an energy density between 400 and 500 Wh/kg-- reportedly three times higher than that of conventional lithium-ion cells used in today's electric vehicles.

What is Huawei's big battery breakthrough?

Huawei's huge battery breakthrough! New solid state tech promises massive range and minuscule charging times. Smartphone giant and EV investor Huawei has challenged CATL and BYD's supremacy by inventing a pioneering new battery that blends an incredible range of up to 3000km with a charging time of just five minutes.

Huawei has stepped up its ambitions in advanced energy storage with a patent for a sulfide-based solid-state battery that offers driving ranges of up to 3,000 kilometres and ultra ...

Huawei has intensified its ambitions in advanced energy storage by patenting a sulfide-based solid-state battery capable of achieving driving ranges of up to 3,000 kilometres ...

Among them is Huawei, which has patented a sulfide-based solid-state battery capable of delivering driving ranges of up to 3,000km ...

Among them is Huawei, which has patented a sulfide-based solid-state battery capable of delivering driving ranges of up to 3,000km and ultra-fast charging in just five minutes.

As Huawei stakes its claim in the battery industry, the implications are vast and multifaceted. The company's innovations could redefine energy storage, impacting everything ...

Huawei's entry adds serious weight to China's ambitions -- and global rivals are watching closely. It's important to note that Huawei's ...

Huawei has filed a patent for a new type of solid-state electric vehicle (EV) battery that could significantly change the future of clean ...

Huawei has filed a patent detailing a sulfide-based solid-state battery design with energy densities between 180 and 225 Wh/lb, roughly ...

Lahore, Pakistan - March 24, 2025 - In a landmark move towards advancing sustainable energy solutions in Pakistan, Huawei and AE Power have officially entered into a strategic partnership ...

Chinese tech giant Huawei has filed a patent for a next-generation solid-state electric vehicle (EV) battery that claims to offer an ...

As Huawei stakes its claim in the battery industry, the implications are vast and multifaceted. The company's innovations could ...

Huawei's entry adds serious weight to China's ambitions -- and global rivals are watching closely. It's important to note that Huawei's bold claims remain theoretical for now. ...

Smartphone giant and EV investor Huawei has challenged CATL and BYD's supremacy by inventing a pioneering new battery that ...

Smartphone giant and EV investor Huawei has challenged CATL and BYD's supremacy by inventing a pioneering new battery that blends an incredible range of up to ...

Huawei has filed a patent detailing a sulfide-based solid-state battery design with energy densities between 180 and 225 Wh/lb, roughly two to three times higher than today's ...
