Why did Huawei win the GSMA 'best mobile network infrastructure' award?

[Barcelona,Spain,February 28,2024]At MWC Barcelona 2024,Huawei's green antenna series won the GSMA Global Mobile (GLOMO) 'Best Mobile Network Infrastructure' award. This is a recognition of Huawei's breakthroughs in boosting efficiency,performance and integration of base station antennas.

Why are Huawei antennas Green?

This is a recognition of Huawei's breakthroughs in boosting efficiency,performance and integration of base station antennas. Huawei green antennas have enabled operators worldwide to simplify 5G construction while maximizing energy efficiency and connection performance,in a manner that supports future network evolution.

How Huawei is accelerating the digital transformation of base stations?

Huawei is accelerating the digital transformation of base stations by adopting AI and IoT. Harnessing these digital technologies,5G Power optimizes coordinated scheduling between various systems,such as power supply modules,site hardware,and the network.

Is Huawei a sustainable company?

Huawei is the first in the industry to launch eco-friendly,high efficiency and green antennas,leading the industry's transition to sustainable development.

Huawei is the first in the industry to launch eco-friendly, high efficiency and green antennas, leading the industry's transition to sustainable development.

On March 4, at Mobile World Congress, Huawei revealed its AI-driven sustainable energy solutions for its green telecom strategy to ...
