What is Sweden's largest energy storage investment?

Sweden's largest energy storage investment, totaling 211 MW, goes live, combining 14 sites. 14 large-scale battery storage systems (BESS) have come online in Sweden to deploy 211 MW / 211 MWh into the region.

How many large-scale battery storage systems are there in Sweden?

14 large-scale battery storage systems (BESS) have come online in Sweden to deploy 211 MW / 211 MWh into the region. Developer and optimiser Ingrid Capacity and energy storage owner-operator BW ESS have been working in partnership to deliver 14 large-scale BESS projects throughout Sweden's grid, situated in electricity price areas SE3 and SE4.

How many pumped storage hydropower plants are in Sweden?

Therefore, it is of great interest to develop an investment analysis model for pumped storage hydropower plants (PSHPs) with only three PSHPs currently operating in Sweden. Of the three, two are fully owned by Fortum in PSHPs A and B, both located in the Stockholm price area (SE3).

How to assess the profitability of pumped storage hydropower plants?

To assess the profitability, an investment analysis tool for pumped storage hydropower plants was created in MathWork's MATLAB, focusing on one of Fortum's already existing pumped storage hydropower plants. The investment analysis tool was built for several cases with fixed operating schedules using a weekly timeframe.

Sweden Energy Storage Market was valued at USD 5.00 Billion in 2022 and is projected to reach USD 10.45 Billion by 2030, growing at a CAGR of 12.8% from 2024 to 2030.
