Will SSE build a battery energy storage system in Ireland?

SSE has acquired the project development rights for a 120MW/240MWh grid-scale battery energy storage system (BESS) project in Ireland's Midlands from UK-based renewable energy company Low Carbon which, if approved for final delivery, could be constructed and operational by the end of decade.

Who is building Ireland's first four-hour battery energy storage system?

Energy company Statkraft is to build Ireland's first four-hour battery energy storage system (BESS). The 20 MW BESS will be supplied by Fluence, the global company that specialises in utility-scale BESS and services. The BESS will be co-located with Statkraft's 55.8 MW Cushaling Wind Farm in Co. Offaly, currently under construction.

Is battery storage a key part of Ireland's energy transition?

Battery storage is a critical part of Ireland's energy transition and I welcome new investors who are committed to delivering our ambitious 2030 targets." Jorge Pikunic, CEO of VPI - "I am excited about the role VPI will play in supporting the Irish Government's Climate Action Plan.

How long will a Cushaling battery last in Ireland?

Statkraft said its Cushaling BESS is designed to provide 20 MW for up to four hours, adding that most grid-scale batteries in Ireland range from 30 minutes to two hours' energy storage capacity. Construction of the battery project is expected to be completed by late 2024. The Cushaling battery is Statkraft's third to be developed in Ireland.

About PSE: PSE has been assuring power continuity on the island of Ireland, UK & Europe since 1985. Their commitment to sustainability, technical expertise, and superior ...

Ireland is an excellent starting point for RWE as we look to expand and grow our battery storage technology

business and become a key partner in Ireland's low carbon energy transition.

VPI, a leading power generation company with a growing presence in Ireland, is pursuing its ambition to enable Net Zero by becoming a significant participant in the Irish ...

Siemens Energy will deliver the first-ever hybrid grid stabilization and large-scale battery storage plant at Shannonbridge in Ireland. This is the first time, these two technologies ...
