Who makes curtain walls?

Since 1983 Aluserdesigns and manufactures curtain walls in various solutions. Contact our team, professionals in the installation of curtain walls.

What is a photovoltaic curtain wall?

They enhance thermal comfort and help prevent the greenhouse effect. A standard curtain wall offers no return on investment. In contrast, a photovoltaic curtain wall not only insulates the building but also generates power for over 30 years. This reduces monthly electricity bills and ultimately pays for itself over time.

What are aluminum curtain walls?

The aluminum systems are not only easy to transport but also straightforward to manufacture. Curtain walls --also known as glass fa&#231;ades and exterior glazing systems--convert previously unused spaces into energy assets, enhancing both aesthetics and functionality.

What is a curtain wall?

Curtain walling refers to a non-structural cladding system made from fabricated aluminum, commonly used on the outer walls of tall multi-storey buildings. This lightweight material offers ease of installation and can be customized to be glazed, opaque, or equipped with infill panels.

The Solar Innova modules of photovoltaic integration technology used in the BIPV installations are multifunctional. That is, in addition to generating ...

WICSOLAIRE is engineered to work in harmony with WICONA window and curtain wall systems. Fully integrated into the fa&#231;ade structure, it simplifies installation and ensures a coherent ...

Both curtain walls and spandrels from Onyx Solar elevate your building's sustainability and aesthetic appeal,

providing customizable options and ...

Ravaioli offers customised wood solutions to cover the facades of urban buildings with sunshades and other architectural elements to protect ...

By shedding the "industrial feel" typically associated with conventional PV modules, the curtain wall seamlessly integrates with the building's exterior, featuring sleek lines and harmonious ...

The Solar Innova modules of photovoltaic integration technology used in the BIPV installations are multifunctional. That is, in addition to generating electricity, they also meet all the requirements ...

All elements are manufactured from extruded standard or bespoke aluminium profiles, cut, and fabricated in the factory. Weather tightness is ensured by the gasket placed between the grid ...

Ravaioli offers customised wood solutions to cover the facades of urban buildings with sunshades and other architectural elements to protect against direct sunlight on exterior walls or in interior ...

Both curtain walls and spandrels from Onyx Solar elevate your building's sustainability and aesthetic appeal, providing customizable options and cutting-edge design. Explore how our ...

Quality, innovation, professionalism in the installation of curtain walls and after-sales service characterize our artisan reality made up of prepared consultants and internal teams of qualified ...

At Aluprof, we are committed to sustainability and reducing carbon emissions in every window, door or curtain wall system we manufacture. With a holistic approach that considers both ...

Thanks to high technical expertise and experience of the Research & Development department, Alumil offers a full range of advanced systems for facades with various curtain wall systems for ...

All elements are manufactured from extruded standard or bespoke aluminium profiles, cut, and fabricated in the factory. ...

Made with infinitely recyclable, low-carbon footprint glass, Lumyra facades achieve an Energy Payback Time (EPBT) of only 0.8-2 years, compared to 4 years for traditional panels.
