How much solar energy will Ivory Coast have in 5 years?

"In five years, the share of solar energy will be 9%," stated Prime Minister of Ivory Coast, Robert Beugre; during the power plant inauguration on April 24. Its capacity is set to expand to 80 MW by 2025, with financing for the expansion already approved by the government.

Where is Ivory Coast's first solar power plant located?

Boundiali (Ivory Coast) (AFP) - The sun beats down from a cloudless sky on the town of Boundiali, where Ivory Coast's first solar power plant embodies the drive to embrace clean energy without abandoning fossil fuels. Issued on: 07/06/2024 - 11:51 Modified: 07/06/2024 - 11:49

How many solar plants will Ivory Coast have by 2040?

Likewise, the government plans to reach 1,686 MW by 2040. The Minister of Mines, Oil, and Energy of the Ivory Coast, Mamadou Sangafoua Coulibaly, has declared plans to add 678 MW of solar capacity by 2030 and 1,686 MW by 2040. Plans for the 12 new solar plants with a combined capacity of 628 MWp are listed on the government website.

Who financed the Ivory Coast solar power station?

The 75.6-million-euro (\$82.1-million) cost of building the solar power station was financed by Ivory Coast, a German loan and a European Union grant. "This is the result of the EU's long-standing commitment to the renewable energy sector, with almost 140 million euros since 2017," EU ambassador to Ivory Coast Francesca Di Mauro told AFP.

The project is being implemented by AMEA Goutougo, a project company registered in Ivory Coast and fully owned by AMEA Power. The project is located in ...
