-----

It provides scalable energy storage from 150kWh to 450kWh per unit and supports both AC and DC fast charging. A larger 20-foot container option offering up to 900kWh ...

We combine state-of-the-art energy storage and EV charging technology into a single, portable solution, ideal for regions with limited power infrastructure or high installation costs.

The CIMC-MEST Energy Storage Vehicle (MESV) integrates 1075kWh batteries and a 500kW PCS, supporting AC/DC charging/discharging. ...

Enter the mobile energy storage charging container - the Swiss Army knife of energy solutions. These ruggedized powerhouses are rewriting the rules of how we access ...

It provides scalable energy storage from 150kWh to 450kWh per unit and supports both AC and DC fast charging. A larger 20-foot ...

It features a high-quality container enclosure pre-installed with a battery rack, allowing clients to integrate their own battery packs, cooling systems, fire suppression systems, and other ...

We combine state-of-the-art energy storage and EV charging technology into a single, portable solution, ideal for regions with limited power ...

Engineered for durability and ease of use, our mobile power station combines robust performance with eco-friendly energy delivery. Whether in remote locations or demanding environments, it ...

The CIMC-MEST Energy Storage Vehicle (MESV) integrates 1075kWh batteries and a 500kW PCS,

supporting AC/DC charging/discharging. With 215kW EV charging connectors and ...

With a large capacity of 2 MWh, this vehicle offers ample storage to meet the demands of various industries. Equipped with six new ...

It features a high-quality container enclosure pre-installed with a battery rack, allowing clients to integrate their own battery packs, cooling systems, fire ...

With a large capacity of 2 MWh, this vehicle offers ample storage to meet the demands of various industries. Equipped with six new energy vehicle charging guns, it allows ...

With integrated solar and wind energy capabilities, it also offers a sustainable alternative to traditional diesel generators. It's ...

Housed in an IP54 container, it features modular racks, perfluoroketone fire suppression, intelligent EMS via 4G/OCPP, and both AC/DC charging interfaces--ideal for grid support, ...

With integrated solar and wind energy capabilities, it also offers a sustainable alternative to traditional diesel generators. It's developed for rapid deployment and flexibility ...

Engineered for durability and ease of use, our mobile power station combines robust performance with eco-friendly energy delivery. Whether in remote ...
