How much does a solar panel installation cost?

Solar panel installation costs vary by the installation company and project scope, making it challenging to pinpoint exactly how much you'll pay to have a pro install your solar panels. However, the U.S. Department of Energy estimates that installers add around \$2.25 per watt to the cost of a solar panel installation.

How much does a solar battery cost?

A whole-home solar battery costs between \$1,700 and \$9,000, or around \$3,900 on average for 10 kilowatt-hours (kWh) of storage for materials. Labor can vary by size, location and complexity. Solar batteries store excess solar power in case it's needed, and this battery size can power most essentials in a home during an outage for several hours.

How much does solar maintenance cost?

Routine solar maintenance costs between \$140 and \$180 annually and occurs anywhere from two to four times yearly. You may spend on the higher end if you need more frequent maintenance services. During your service, a professional solar technician will inspect your panels and clean them.

Are solar panels a good investment?

Solar panels have a ROI of around 10% on average. Over time, solar panels pay for themselves, making your energy bills free or significantly lower. For some homeowners, this long-term saving can make going solar a worthwhile investment, but for others, the high upfront costs aren't worth it.

Solar panel costs range from \$16,600 to \$20,500 for the average 6.5 kW system, but prices can vary from as little as \$7,700 for smaller solar systems to upward of \$34,700 for larger systems.
