---

We have a range of modular off grid container, (or other) based power supplies. The beauty of our systems is they are completely expandible in terms of PV Panels, Inverter Kw output/phases ...

Solar-Gen is a new range of customisable solar pv generators with battery storage, housed in modified shipping containers. The solar pv arrays ...

Unlike traditional power infrastructure, off-grid containers are fully mobile and can be transported to different locations as needed. This ...

In this tutorial, we're going to demystify the 7 must-have features of a successful solar container using practical use cases, industry insights, and a pinch of humor to make it fun.

In this tutorial, we're going to demystify the 7 must-have features of a successful solar container using practical use cases, ...

Our containerised hybrid power system is an ideal solution for those needing deployable power, emergency power, back up ...

We are offering mini renewable power stations in a Off-Grid shipping Container ready to be deployed worldwide. These include solar PV panels and mountings.

Solar-Gen is a new range of customisable solar pv generators with battery storage, housed in modified shipping containers. The solar pv arrays have peak outputs from 800 Wp to over ...

Among the innovative solutions paving the way forward, solar energy containers stand out as a beacon of off-grid power excellence. In this comprehensive guide, we delve into ...

Now, when you have the material and the permission, it is time to start laying the foundation of living off grid UK. Modify the container to include openings for windows, doors, ...

These systems are silent, fully self-contained, require very little maintenance and can deliver sufficient power almost indefinitely. Contact our team if you're looking for containerised off-grid ...

Discover the suitability of shipping containers for remote living and workspaces with solar power, rainwater systems, and sustainable tech.

Unlike traditional power infrastructure, off-grid containers are fully mobile and can be transported to different locations as needed. This makes them ideal for temporary or mobile ...

Our containerised hybrid power system is an ideal solution for those needing deployable power, emergency power, back up power, power in remote locations, temporary sites or sites with no ...
