I have been playing the app Euclidea, I have been doing quite well but this one has me stumped. "Construct a triangle whose perimeter is the minimum possible whose ...

@lonestudent It really isn"t that simple, y doesn"t have a tangible value, only a range of possible values it could be. An easy counter-example to your claim is x having the ...

Alternatively, to avoid ambiguity, reserve the term " minimum cut " for flow networks, and use precise terms like minimum edge cut, minimum cutset, minimal edge cut ...

In this way, you have to generate only a small fraction of all the codewords to find the minimum distance, and the idea can be generalized to any linear code. The first step then is to find a ...

Currently learning about spanning trees and using Kruskal"s algorithm and I was wondering whether a minimum weight spanning tree of a weighted graph must contain one of ...

This process repeats for the 3rd, 4th, and 5th monkeys. Every time, they divide the current pile by 5, eat the single remainder, and take a $\frac{1}{5}$ share. What is the ...
