A Higher Wire system ...

Let's face it - batteries are the unsung heroes of the solar revolution, and their proper assembly makes the difference between a system that fizzles out and one that shines.

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

These rugged, self-contained systems integrate large solar arrays, advanced battery storage, and high-capacity fuel cells -- with optional diesel redundancy when regulatory or client ...
