-----

The state's draft solar policy, unveiled in 2022, set an ambitious target of installing 6,000MW of solar capacity by 2025, which ...

Delhi holds significant potential to scale up its renewable energy infrastructure, particularly through solar power, which is crucial for ...

This approval represents a critical milestone for Delhi's renewable energy journey, combining solar generation with energy storage to provide a reliable, clean, and dispatchable ...

Dramatic cost reductions over the last decade for wind, solar, and battery storage technologies position India to leapfrog to a more flexible, robust, ...

Dramatic cost reductions over the last decade for wind, solar, and battery storage technologies position India to leapfrog to a more flexible, robust, and sustainable power system for ...

Explore Delhi's 2025 solar energy statistics--installed capacity, rooftop growth, annual generation, challenges, and insights for consumers and developers.

The state's draft solar policy, unveiled in 2022, set an ambitious target of installing 6,000MW of solar capacity by 2025, which will comprise 750MW of rooftop solar and 5,250MW ...

Delhi holds significant potential to scale up its renewable energy infrastructure, particularly through solar power, which is crucial for meeting the city's high energy demand ...

Explore Delhi's Solar Policy 2025--key incentives, net metering rules, and initiatives driving clean energy

adoption across the capital city.

Load drivers such as ACs and EVs and new resources such as battery energy storage systems (BESS) create opportunities to develop a flexible grid that can manage the rapidly growing ...

Commissioned in May 2025, the 20 MW Kilokri unit is developed by BSES Rajdhani Power Limited and enhances power reliability for nearly one lakh residents in south ...

The BESS provides four hours of uninterrupted backup power daily--two hours during afternoon peaks and two at night--helping replace fossil fuel based power generation ...

In a significant step toward India's clean energy transition, AmpereHour Energy, in collaboration with Indigrid and BSES Rajdhani Power Limited (BRPL), has successfully ...

The BESS provides four hours of uninterrupted backup power daily--two hours during afternoon peaks and two at night--helping ...
