You should use `new` when you wish an object to remain in existence until you delete it. If you do not use `new` then the object will be destroyed when it goes out of scope.

Note that if you declared it `var a = new { }; and var o = new object();`, then there is one difference, former is assignable only to another similar anonymous object, while latter ...

I have a linq query `var x = (from t in types select t).GroupBy(g => g.Type)` which groups objects by their type, as a result I want to have single new object containing all of the ...

A new expression is the whole phrase that begins with `new`. So what do you call just the `"new"` part of it? If it's wrong to call that the new operator, then we should not call ...

0 The target attribute of a link forces the browser to open the destination page in a new browser window. Using `_blank` as a target value will spawn a new window every time ...

I have built a powerBI dashboard with data source from Datalake Gen2. I am trying to add new column into my original data source. How to refresh from PowerBI side without ...

The new keyword in JavaScript can be quite confusing when it is first encountered, as people tend to think that JavaScript is not an object-oriented programming language. What is it? What ...

Gonna give a two stroke a try for this seasons enduro championship in D36 after 3 years on 450"s. Slowly going through it one or two changes at a time. Will share thoughts. First ...
