---

Nordic Semiconductor, a global leader in low-power wireless connectivity solutions, today announces the acquisition of its long-term partner, Memfault Inc., the market-leading cloud ...

It is designed as a complementary component to Nordic's nRF52™ Series and nRF53™ Series System-on-Chips (SoCs) to ensure reliable power delivery and stable operation, whilst ...

Nordic Semiconductor is a global leader in low power wireless connectivity solutions, providing the essential platform and wireless technologies that connect the world's IoT devices.

An integrated RISC-V coprocessor can run software-defined peripherals and handle time-critical tasks. With innovative technologies emerging - like Channel Sounding in Bluetooth 6.0 - ...

Nordic Semiconductor, a global leader in low-power wireless connectivity solutions, today announces the launch of the nRF9151 SMA Development Kit (DK), a ...

The interactive online learning platform here to equip developers with the technical information and know-how to build wireless products using Nordic Semiconductor solutions.

Global IoT wireless connectivity module supplier, MinewSemi, has announced a new Bluetooth & LE module based on Nordic Semiconductor's new next generation of wireless SoCs, the ...

The low power consumption is thanks in part to the ultra-low power characteristics of the nRF54L15 SoC, including Nordic proprietary technologies such as low-leakage RAM and ...

Nordic Semiconductor is a leading provider of low-power wireless communication solutions, utilizing decades of ultra-low-power wireless expertise to maximize Wi-Fi's low-power potential ...
