---

Mobile Solar Container Stations for Emergency and Off-Grid Power Designed for mobility and fast deployment, our foldable solar power containers combine solar modules, storage, and ...

A new energy law adopted in May 2025 is expected to further accelerate the uptake of battery storage. State-led solar and wind ...

With its pioneering project in North Macedonia, Fortis Energy could pave the way for battery technology in the Western Balkans. The ...

The proposed battery storage capacity will play a crucial role in stabilizing the grid as North Macedonia increases its reliance on intermittent renewable energy sources like solar ...

In this project, Pomega's lithium battery cells, battery management system, and advanced energy storage solutions will be utilized. This will allow solar energy to be efficiently used not only ...

Technological advancements are dramatically improving solar storage container performance while reducing costs. Next-generation thermal management systems maintain optimal ...

Jan 9, North Macedonia, which has been attracting investments in battery factories, is in talks on a project worth up to EUR 360 million, according to Prime Minister Hristijan Mickoski.

The 2.6 MW BESS projects are just the start of battery storage in the country with YESS Power, a Turkey-based contractor, planning to ...

A city where sudden power outages become as rare as unicorn sightings, and solar panels work overtime even after sunset. That's the promise of the Skopje Energy ...

Next-generation battery management systems maintain optimal operating conditions with 45% less energy consumption, extending battery lifespan to 20+ years. Standardized plug-and-play ...

With its pioneering project in North Macedonia, Fortis Energy could pave the way for battery technology in the Western Balkans. The Oslomej solar power facility, operated by ...

A new energy law adopted in May 2025 is expected to further accelerate the uptake of battery storage. State-led solar and wind projects, along with investments in grid ...

The 2.6 MW BESS projects are just the start of battery storage in the country with YESS Power, a Turkey-based contractor, planning to commission a 60 MW BESS project in ...
