SunTrain stores green energy from remote solar and wind farms within customised battery containers that are transported over existing railroad networks. American railroads are ...

SunTrain wants to use the existing freight rail system to transport clean energy from wind farms and solar arrays to the grid.

Discover how Higher Wire shipping container solar systems provide reliable, off-grid power for remote worksites and projects.

We are offering mini renewable power stations in a Off-Grid shipping Container ready to be deployed worldwide. These include solar PV panels and mountings.

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

Explore our modular containerized energy storage system with integrated power conversion. A flexible, mobile solution for rail depots, testing, and industrial backup.

PUEBLO, Colo. -- SunTrain, a San Francisco company, is designing a method to transport power by rail, moving containerized batteries between solar and wind farms in ...
