How many wind power stations are there in Oman?

Dubai: Twelve companies have been selected to construct five large-scale wind power stations in Oman. These five projects, set for completion by 2027, will boost Oman's wind power capacity from 50 megawatt (MW) to 1 gigawatt (GW), a 20 times increase.

How fast is Oman's First Wind-based power plant?

The plant, Oman's first wind-based power project and one of the most prominent renewable energy projects, managed to reach this level of power generation at an average wind speed of 12.6 metres per second (m/s).

Why is Nama PWP launching wind projects in Oman?

Ahmed bin Salim al Abri, Acting CEO of Nama PWP, said, "The announcement of these wind projects is a pivotal moment for Oman's energy sector. These projects are not only critical in our mission to reduce greenhouse gas emissions but also play a fundamental role in advancing our national goals for renewable energy generation.

How many wind power plants will Oman acquire in 2024?

07 Mar 2024 by evwind. Oman's Nama Power & Water Procurement Company (PWP) has announced plans to acquire five wind power plants with a combined capacity of 1,171 MW. The planned schemes and their capacities are: Dhofar 2: 132 MW Sada: 99MW Duqm: 270MW Power: 400MW Jaalan Bani Bu Ali: 270MW

PWP determines Bulk Supply Tariffs for Electricity and Water annually, following the principles set forth in its license and as approved by the Authority for Electricity Regulation, Oman.

This validated data is being published in phases for the benefit of potential wind power developers interested
