What are watertight 20ft shipping containers?

Our range of watertight 20ft shipping containers is designed specifically with overseas shipping in mind. Thanks to their standardised dimensions, they meet all necessary regulations, allow for easy loading and unloading right from your local depots, and can be easily stacked onto the back of a train or ship.

What is a 20ft shipping container used for?

Likewise,a 20ft shipping container can be used across a wide range of industries,including everything from construction and agriculture to retail and hospitality. They're a great choice for general storageor more specific protection for building sites or sports clubs - thanks to their ample internal space and an excellent level of security.

How much does a 40 ft cube container cost?

The 40ft high cube container will set you back anywhere from \$2,000 to \$6,000. A new container,with its fresh-off-the-factory-floor feel,naturally costs more than its seasoned counterparts. Used or cargo-worthy containers,which have braved the elements and collected some dents along the way,have lower price tags.

How much does a container cost at Pelican containers?

If you want to save some money,you may find good-condition containers for under \$1,000at Pelican Containers. It's best to understand the container grading system before buying: Cargo-worthy (CW). Available for \$500 to \$4,000,these containers are waterproof and typically 5 to 15 years old.
