Are collapsible containers airworthy?

Yes, all our collapsible containers comply fully with civil aviation regulations. They are completely airworthy, and they can be restrained directly by the Cargo Loading System of any compatible aircraft. Are special tools needed to operate a collapsible ULD? You don't need any special tools to operate our collapsible containers.

What is a collapsible container?

Collapsible containers can be used to transport cargo in the usual way, but they can also be folded and stacked when you need to store or reposition them. This feature maximises your ULD storage capacity and lets you relocate empty ULDs more efficiently and cost-effectively, which in turn helps rebalance ULD stocks around the world.

Do manufacturers offer customisation options for collapsible containers?

Yes, many manufacturers provide customisation choices for collapsible containers, including those for bulk use. You can often have the option to select various sizes, colors, even have your logo printed on them. However, the accessibility of these options can differ from one manufacturer to another and may influence the cost of the containers.

Should you use a collapsible & stackable container?

Finding sufficient storage space in various locations around the world is a constant frustration for ULD fleet managers, particularly when containers are empty. But with a collapsible and stackable container there's a way to dramatically reduce the amount of valuable space your containers take up when they're not being used.

LZY Mobile Solar Container System - The rapid-deployment solar solution with 20-200kWp foldable PV panels and 100-500kWh battery storage. Set up in under 3 hours for off-grid ...
