You can try replacing it. I'd use a 2A standard diode. The leads and body look too fat for a simple 1N4001 to 1N4007 range. Also, are you sure it's the problem? Is this the switch ...

Repair Service: Replacing the LR arm axis was honestly a relatively easy repair. After replacing the arm, and powering up the gimbal does its vertical and horizontal tests, but ...

I have put back together the entire gimbal already, and I would much rather superglue a plastic piece to the motor than fully disassembling the gimbal again and replacing ...

I'm replacing the left front leg. I can't get the spring loading to work. Leg just flops around. Any help?

Replacing a part on MOST DJI Drones does indeed require that the part be serialized. its not a big secret and I am sure the OP is aware of that. Replacing the sensor will ...

Hi everyone, My DJI RC with the integrated screen, bought with my Mini Pro 3 two years ago, is now showing its age. Even when charged to 100%, it drops to 80% after a few ...
