system ensures uninterrupted operations for lighting, air conditioning, and ...

The 40-foot solar container is designed to be easily assembled and disassembled in 96 hours due to its PV roof structure and extendable arms. This allows us to electrify entire communities ...

A recently installed 30kW off-grid solar system! This system, now fully operational, is designed to ensure continuous power supply, even in areas prone to frequent outages.

Our extremely resilient Quattro 48/15000/200-100/100 inverter/charger is the heart of many global off-grid installations. It combines an inverter and charger in one enclosure and has 2 AC inputs.

This project, the first of its kind in East Africa, installed 4 solar stations across Ethiopia's most challenging terrains, including the conflict-prone Somali region.
