---

We provide walk-in/non-walk-in energy storage containers, liquid cooling cabinets, marine energy storage containers and various non-standard energy storage products.

Riyadh energy storage projects are rewriting the rules of sustainable power. From mega-battery installations to sand-resistant solar farms, Saudi Arabia's capital isn't just surviving the heat - ...

The system operates reliably at temperatures up to 55 °C, supported by a bionic cooling system that maintains long-term efficiency and reliability under high-heat conditions.

Renting Energia's BESS (Battery Energy Storage Systems) offers clients unparalleled advantages. These modules enhance energy efficiency by storing excess power during off ...

At Cooltechx, we specialize in energy storage cooling solutions engineered for extreme environments. Our team provides full technical support, product customization, and fast ...

The ZBC range of battery energy storage systems come in 10 feet and 20 feet high cube containers. These containers are designed to meet the requirements for off and on-grid ...

With a large capacity of 2 MWh, this vehicle offers ample storage to meet the demands of various industries. Equipped with six new energy vehicle charging guns, it allows ...

Research teams at KAUST and Aramco are developing these new batteries for specific subsurface energy-production purposes.

We provide walk-in/non-walk-in energy storage containers, liquid cooling cabinets, marine energy storage containers and various non-standard energy storage products. Meet ...

We provide walk-in/non-walk-in energy storage containers, liquid cooling cabinets, marine energy storage containers and various non-standard energy storage products. Meet the requirements ...

There are two major types of battery chemistry in modern BESS - Lithium-ion and Lithium Iron Phosphate (LFP). Our smaller units, from 45 to 90 kVA, are LFP, which boasts better thermal ...
