Serbia is set to host one of the largest integrated solar and battery storage projects in Southeast Europe, marking another milestone in the region's renewable energy expansion.

Turkish renewable energy company Fortis Energy has announced plans to construct a 110 MW solar power plant near the town of Sid in northwestern Serbia. The ...

Turkish renewables company Fortis Energy announced plans to build a 110-MWp solar farm, coupled with 31.2 MWh of energy storage, in the northern Serbian municipality of Sid.

Here's a plot twist: Serbia's iconic Djerdap Hydroelectric Plant could become Europe's biggest "water battery". By adding reversible turbines, it might store 1.2 ...

Storage: Large-scale deployment of variable/intermittent renewable power sources--i.e., wind and solar power--make grid balancing more challenging and can ...

Delivering the utmost flexibility to the Serbian government, the Large-Scale Solar and Battery Energy Storage Project being developed by UGT Renewables will be owned and operated by ...

The main players who are establishing the foundation for Serbia's storage infrastructure are highlighted in this article, which ranks the top 10 energy storage companies ...

Discover how Serbia is leveraging cutting-edge energy storage solutions to stabilize its grid and accelerate renewable adoption. Explore market trends, project case studies, and opportunities ...

Turkish renewables company Fortis Energy announced plans to build a 110-MWp solar farm, coupled with

31.2 MWh of energy storage, ...

This hybrid solar and storage project represents a strategic investment aimed at enhancing grid reliability, integrating renewable energy, and reducing dependence on fossil ...

Serbia plans to build solar power plants, wind farms, and pumped-storage hydropower plants, but also gas-fired power plants, energy storage batteries, and hydrogen facilities, in order to ...

The main players who are establishing the foundation for Serbia's storage infrastructure are highlighted in this article, which ranks ...

Delivering the utmost flexibility to the Serbian government, the Large-Scale Solar and Battery Energy Storage Project being developed by UGT ...
