Is solar energy a viable option in Oman?

Solar energy is a viable option in Oman given the vast unused land and available solar energy resources. It could not only cater to the growing need for energy diversification but also help in economic diversification in Oman.

Can Oman's power sector regulate rooftop solar panels?

The Authority for Electricity Regulation Oman (AER) - Oman's power sector regulator, is taking steps to pave the way for homeowners to install rooftop solar panels. Any surplus electricity generated can be sent back into the national grid.

Which region in Oman has the highest solar radiation?

The highest solar radiation in Oman is found in Marmul. Other regions with high solar radiation include Fahud, Sohar, and Qairoon Hairiti. The desert areas in Oman generally have the highest insolation of solar energy, while the coastal areas have the least.

The two companies have signed an agreement to build a Solar PV Plant at the Mall of Muscat facility, marking a significant step in Oman's National Energy Strategy to ...
