We are offering mini renewable power stations in a Off-Grid shipping Container ready to be deployed worldwide. These include solar PV panels and mountings.

In today's rapidly evolving renewable energy landscape, mobile solar containers have emerged as one of the most versatile and scalable solutions for off-grid power generation.

Highjoule's mobile solar containers provide portable, on-demand renewable energy with foldable photovoltaic systems (20KW-200KW) in compact 8ft-40ft units.

This range is divided into box for small power, in 10" containers for intermediate power and 20" containers for larger power. Those solutions ...

From portable units to large-scale structures, these self-contained systems offer customizable solutions for generating and storing solar power. In this guide, we'll explore the ...

This range is divided into box for small power, in 10" containers for intermediate power and 20" containers for larger power. Those solutions are delivered pre-tested and ready to connect. ...

LZY mobile solar systems integrate foldable, high-efficiency panels into standard shipping containers to generate electricity through rapid deployment generating 20-200 kWp solar ...

LZY-MSC1 Sliding Mobile Solar Container is a portable containerized solar power generation system, including highly efficient folding solar modules, advanced lithium battery storage and ...

Two configurable solar power and battery storage systems form the core of our product offerings: the

SolarContainer and the MiniBox. The SolarContainer line is our most versatile microgrid ...

The most common and innovative application is installing solar panels on shipping containers. These solar containers are designed to house all the necessary components for solar energy ...

Our Solarator(TM) renewable generators are portable, reliable Battery Energy Storage Systems (BESS) that deliver continuous 24/7 power, 365 days a year, in any condition. As market ...
