-----

Virtually nonpolluting and abundantly available, solar power stands in stark contrast to the combustion of fossil fuel and has become increasingly attractive to individuals, ...

TheHistoryofToday - Today in History: Daily historical facts, events, famous birthdays, world history, United States history and music history. (On-This-Day )

People have used the sun's rays (solar radiation) for thousands of years for warmth and to dry meat, fruit, and grains. Over time, people developed technologies to collect solar energy for ...

Solar power, also known as solar electricity, is the conversion of energy from sunlight into electricity, either directly using photovoltaics (PV) or indirectly using concentrated solar power.

What is solar energy? Solar energy comes from the limitless power source that is the sun. It is a clean, inexpensive, renewable resource that can be harnessed virtually ...

Find out what happened on any day in history, from major historical events and anniversaries to birthdays or deaths of famous figures.

If you invest in renewable energy for your home such as solar, wind, geothermal, fuel cells or battery storage technology, you may qualify for an annual residential clean energy tax credit.

On This Day In History: anniversaries, birthdays, major events, and time capsules. This day's facts in the arts, politics, and sciences.

Discover what happened on this day in history. Explore key events, famous birthdays, and historical

milestones from past to present.

Discover what happened today in history! Explore historical events, famous birthdays, and notable deaths for any date. Daily dose of fascinating history facts and stories.

Find out what happened today or any day in history with On This Day. Historical events, birthdays, deaths, photos and famous people, from 4000 BC to today.

On This Day in History: March 15 In 44 B.C., Julius Caesar was assassinated in Rome in March, stabbed to death by Brutus, Cassius, and other Roman senators. In 1493, ...

Preserving the past, one day at a time Welcome to On This Day in History, where each day unveils the stories, events, and people that shaped our world.

Learn about important and interesting historical events that happened on today in history. Hundreds of events and facts from history, film, music and sport.

There are two main types of solar energy technologies--photovoltaics (PV) and concentrating solar-thermal power (CSP). On this page you'll find resources to learn what ...

Explore the advantages and disadvantages of solar energy, its sustainability, and environmental impact. Learn how it promotes energy independence despite some drawbacks.
