SolaraBox Mobile Solar Container brings green energy wherever you need it. The integrated solar system delivers 400-670 kWh of energy daily. Thanks to foldable solar arrays, the container is ...

The mobile solar container contains 200 PV modules with a maximum nominal power rating of 134kWp, and can be extended with suitable energy storage systems.

Built-in, ready to go inverters provide a 120V/240V output to either an electrical panel or to standard electrical outlets. The Grid Buster is designed with 2 separate sub-systems, each connected to a ...

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

We sell a container including fold-up aluminium solar wings, each made from 8 solar panels, providing 2.4kW power and wired to the pre-fitted technical room inside the container.

Highjoule's mobile solar containers provide portable, on-demand renewable energy with foldable photovoltaic systems (20KW-200KW) in compact 8ft-40ft units.

We offer two types of solar containers that differ in design and power output. Besides our flagship, auto-foldable container, we also offer the manual version of this unit.

The Nomad Energy Box is a pre-wired solar PV array integrated in a shipping container with a retractable folding rack mechanism that rolls onto the ground on wheels that match the terrain.

Whether you want to use solar energy to power your home, business, or something else entirely, our containers are the perfect solution. Contact us today to learn more about how our mobile solar ...
