Will China reduce the export tax rebate for solar panels?

The Chinese Ministry of Finance and the State Administration of Taxation have revealed that the country will reduce the export tax rebate for 209 products, including solar PV cells and modules from 13% to 9%, starting from December 1, 2024.

What is the new export tax refund rate?

The export tax refund rate for certain products, including refined oil, photovoltaic products, batteries, and some non-metallic mineral products, will be reduced from 13% to 9%. Refer to Annex 2 for the detailed product list. The announcement will take effect on December 1, 2024.

What are export tax rebate mechanisms?

As an essential component of a country's tax system, export tax rebate mechanisms aim to balance domestic product tax burdens and allow domestic products to enter international markets at tax-free costs, thereby enhancing competitiveness and increasing exports. Key points regarding this change are summarized below:

What products will be canceled if my export tax refund is canceled?

Export tax refunds will be canceled for products such as aluminum, copper, and chemically modified animal, vegetable, or microbial oils and fats. Refer to Annex 1 for the detailed product list.
