How big is BYD energy storage & Saudi Electricity Company?

Recently, BYD Energy Storage and Saudi Electricity Company successfully signed the world's largest grid-scale energy storage projects contracts with a capacity of 12.5GWh at the time. Combined with the previously delivered 2.6GWh project, the total cooperation now has amounted to a massive 15.1GWh of projects.

What makes BYD a great energy storage company?

With 17 years of innovation in the energy storage sector, BYD has delivered more than 75GWh of BESS equipment to more than 350 projects in 110 countries and regions. The company's philosophy of being Technology-based, Innovation-oriented has fuelled breakthroughs across generation, utility and consumption applications.

What is a battery energy storage system?

A Battery Energy Storage System (BESS) is a technology that stores electricity for later use. It helps balance the power grid by storing excess energy when production is high and releasing it when demand rises. BESS is key for using renewable energy sources, like solar and wind. These sources don't produce power all the time.
