Will German-Turkish companies build a new power station south of Tripoli?

The General Electricity Company (GECOL) announced, Friday, that work is underway to establish a new power station south of Tripoli by German-Turkish companies. The National Oil Corporation (NOC) denied in a statement on Sunday reports about the failure to supply power stations with the required quantities of fuel and gas, stress

How will Libya's new power plant help reduce blackouts?

Once operational, its 1,320 MW capacity will play a vital role in reducing blackouts and ensuring a more dependable power supply across the central and western regions of the country. This project also underscores Libya's commitment to collaborating with international partners to expedite its energy recovery.

How does UNDP support Libyan energy sector?

context UNEP and UNDP have been cooperating on Libyan energy sector support work since 2019. The UN work in turn fed into an ongoing international and national working partnership, which is focused on both maintaining critical electricity and electrically power water supply services and commenc
