What is the warranty on the storage system?

Equipment warranty The term of guarantee of normal operation of the storage system and free service is one year from date of purchase. If a failure occurs multiple times, the storage system might shut off to avoid a serious accident.

Does a battery storage system need a warranty?

A battery storage system is a decades-long investment that a warranty can help protect. The less power your system stores, the more your home may need to draw from the utility company, which eats into your savings. A good warranty ensures that if your battery experiences a problem, that it will be replaced and your investment will be protected.

Which battery storage system has the strongest warranty?

Comparisons should focus on product warranty terms, end of warranty capacity, labor warranty terms, and transferability. Based on our ranking system, SolaX Power has the strongest overall warranty. Why are battery warranties important? A battery storage system is a decades-long investment that a warranty can help protect.

How long does a battery warranty last?

A standard battery warranty should come with at least 10 years of protection, though it can be shorter depending on how often you charge and drain your battery. Battery warranties typically won't reimburse for labor costs associated with installing new equipment or shipping fees for new equipment.
